

EUROPEAN CULTURAL HERITAGE SKILLS ALLIANCE

**CHARTER** – Cultural Heritage Actions to Refine Training, Education and Roles, is an Erasmus+ funded project, starting from January 2021 until December 2024.

CHARTER seeks to create a lasting, comprehensive sectoral skills strategy to guarantee that Europe has the necessary cultural heritage skills to support

sustainable societies and economies, including transversal competences such as digital/technological and green/blue economy skills.

By combining strategic collaboration and innovative approaches, the project will bridge the gaps between educational and occupational

systems and employer needs. The CHARTER Alliance will mainstream the methodologies and outcomes to ensure an impact at European, national and regional levels in order to enable Europe to sustainably protect, promote and enhance its tangible and intangible cultural heritage.

# **Targets**

The CHARTER Alliance will benefit several target groups with its cultural heritage (CH) skills blueprint:

VET centres & Trainers Public Bodies

Universities, Higher Education Institutes & Academics

Professors, Senior Teachers, Lecturers, Researchers Policy makers

at local, national and EU level

#### CH Industry & CH Professionals

Archaeologists, architects, landscape architects and conservator-restorers, craft-restorers, art historians, anthropologists, archivists, librarians and other specialists, museum professionals in all profiles (educators, curators, documentalists, etc.), heritage managers and planners, mediators, heritage interpreter, digital and IT, etc.

Other Erasmus+ projects

#### Networks

Education, Regions, Cultural Heritage, Cultural Policy, Museums

#### Students

Undergraduates, Graduates, Career-changers, PhD students, PhDs of mainly cultural heritage/cultural management faculties

## **Aims**

Map the needs of the cultural heritage sector to identify skills shortages and mismatches in order to develop training programmes for already-active CH professionals.

Support the education system to become responsive and adapt their curricula and learning goals in accordance with the actual needs of the sector.

Use the mapping of the CH sector to provide and ensure qualitative professional development. Statistical and economic visibility will demonstrate the value of CH professionals and ensure that they are paid accordingly.

Create a transferable methodology and framework that will make it easy to recognise competences and skills found across the CH sector.

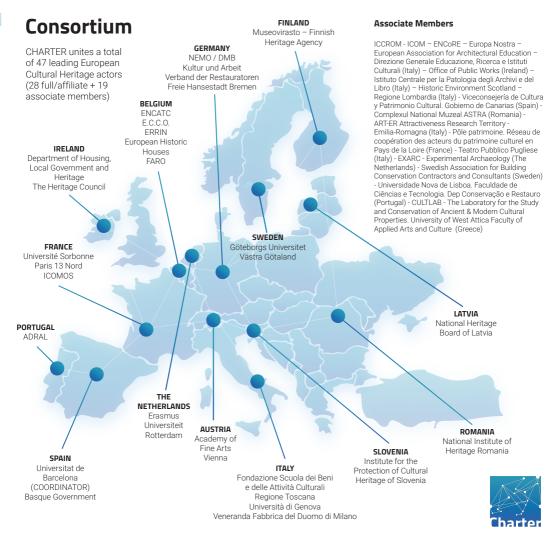

Make upskilling of core and transversal skills easily accesible and encourage exchange, capacity building and movement within Europe.

Make obvious the power and value of CH in creating a sustainable future and promoting social cohesion in Europe. CH is integral in achieving social, economic and environmental sustainability.

Produce cultural heritage policy recommendations and advocate at EU level for the benefit of all current and future CH workers and students.
